

Busbar punching tool Quick punching No burrs and chips Precise positioning

SHAB-80B (blue)

1. Body is made of high strength steel
2. Quick speed, smooth punching without burr; positioning plate for precise location
3. Make punching safe and clean without punching chipping
4. Equipped with quick coupler for easy disassembly
5. Powered by single acting hydraulic pump

31t
700bar

SHAB-80C (black)

SHAB-80B / SHAB-80C

Output Force	31t
Rated Pressure	700bar
Max Thickness	Cu/Al 13mm, Plain Steel 10mm
Weight	13.5kg
Throat Depth	80mm
Standard accessories	Φ10.5, Φ13.5, Φ17.5, Φ20.5mm dies, fixing wrench, hexagon wrench
Optimal punching die accessories	Φ8.5, Φ11.5, Φ15.5, Φ18.5mm
Dimensions	250*100*370mm
Packing	Steel case/Plastic case
Packing Size	44*38*16cm

Busbar punching tool

SH-100D

1. Two stage hydraulic, faster punch
2. Body forged from high strength steel
3. Throat depth 100mm, punching quicker and easier
4. Powered by double acting hydraulic pump

60t
700bar

Two stage hydraulic Faster punch

SH-100D

Output Force	60t
Rated Pressure	700bar
Max Thickness	Cu/Al 20mm, Plain Steel 16mm
Weight	34kg
Throat Depth	100mm
Standard accessories	Φ16, Φ18, Φ22, Φ24mm dies, fixing wrench, hexagon wrench
Optional punching die accessories	below Φ8.5-26mm die
Packing	Steel case

Four-hole punching machine

Quick speed No burrs and chips Precise positioning

SH-4D

100t
700bar

1. Suitable for punching L-shaped angle steel, H-shaped I-beam, flat steel, copper and aluminum
2. The body is made of high-strength forged steel
3. Quick punching with smooth punching surface without burr; positioning plate design for precise location
4. Make punching safe and clean without punching chipping
5. Portable for mobile operation, also suitable to fix in workshop for batch cutting work
6. It can punch one hole, two holes, four holes at the same time
7. Powered by double acting hydraulic pump

SH-4D

Output Force	100t
Rated Pressure	700bar
Single punching number	One, Two, Four
Punching Thickness	Thickness 26mm, width 200mm or less
Distance of four holes	40mm-60mm
Weight	75kg
Packing	Wooden Case
Standard Accessories	Φ18mm punching die,
Optional Accessories	Die fixing block
	Punching dies customized

Battery powered punching tool

ESH-25

Two stage hydraulics:

Two stage hydraulics, automatic pressure relief

LCD:

LCD screen, display crimping times

LED:

LED working light for dark place

Lithium battery:

High capacity 18V lithium battery with power display, with fast charger

PP Plastic:

PP plastic, molding in one, strong and anti-impact suitable for punching the pole on the cross arm

ESH-25

Output Force	12t
Rated Pressure	700bar
Max. Thickness	Angle steel 6mm, Cu/Al 6.5mm
Throat depth	25mm
Standard	Punching dies 10.5 13.5 17.5
Weight	10kg
Packing	Plastic case
Optional	Punching dies below 17.5mm

Battery powered steel sheet punching tool

ECT-UA6P

Two stage hydraulics:

Two stage hydraulics, automatic pressure relief

LCD:

LCD screen, display crimping times

LED:

LED working light for dark place

Lithium battery:

High capacity 18V lithium battery with power display with fast charger

PP Plastic:

PP plastic, molding in one, strong and anti-impact

ECT-UA6P

Output Force	6t
Rated Pressure	700bar
Punching Capacity	Plain steel plate: 3.5mm thick, 1/2-3"
	Stainless steel: 2.5mm thick, 1/2-3"
Weight	3kg
Packing	Plastic case
Standard	Dies 1/2-3"

Mechanical punching tool Battery powered punching tool

CGK-1

1. Expand Hole, repair hole and punch hole for 10kV distribution network cross arm in power sector, tower; Punching for power plant, substation, copper and aluminum busbar, equipment clamp, flat steel, etc.
2. Railway, post and telecommunications, petroleum, geology, construction industry maintenance and reinforcement. The machine does not require electricity and is suitable for outdoor, high-altitude and underwater operations
3. Leverage principle, screw force, easy operation, high efficiency
4. Made of ultra-high strength alloy steel, light weight and easy to carry

EH-20

1. Suitable for punching L-shaped angle steel, H-shaped I-beam, flat steel, copper and aluminum
2. Fast punching speed, small size, light weight, easy to operate
3. Hydraulic punching can eliminate the chips generated by drilling, and work more safer and Cleaner
4. Easy to carry to the work site or fixed in the factory for mass punching

Steel bar cutting tool

EHT-20B

1. Tubeless rescue tool, integrated with high hardness shear blade, ultra-high pressure hydraulic pump, micro motor and large capacity battery
2. Can quickly and efficiently cut steel bars, steel pipes, house anti-theft windows, etc. It is widely used in the consumption of leeks, emergency rescue, high-altitude operations, earthquake relief and rescue of complex terrain

CGK-1

Punching Thickness	≤10mm
Weight	16kg
Throat Depth	65mm
Standard	13" 15" 17" 19" 21"
Packing	Plastic case

EH-20

Voltage	220V/110V
Max. Thickness	Cu/Al: 8mm Steel/ Steel plate: 6mm
Weight	12kg
Throat Depth	40mm
Packing	Steel case

EHT-20B

Voltage	18V
Cutting Capacity	4-20mm
Cutting Speed	4-5s
Weight	7kg
Packing	Plastic case
